

**9th Job Openings for Tenure-Track Positions through the HIRAKU Consortium,
Japan (Chemical Engineering / Associate Professor or Lecturer (Tenure-Track) /
Yamaguchi University)**

January 2018

**The deadline for submitting the application has been extended to
10 a.m. on May 1, 2018 (Japan Standard Time).**

Hiroshima University, Yamaguchi University, and Tokushima University have jointly established a consortium called “Home for Innovative Researchers and Academic Knowledge Users (HIRAKU).” The consortium focuses on human resource development and the allocation of young researchers and graduate students in cooperation with firms, universities, and institutes in the Chugoku and Shikoku regions. Supported by Funds for the Development of Human Resources in Science and Technology through Japan’s Ministry of Education, Culture, Sports, Science and Technology (MEXT), the consortium aims to improve the regional potential in science, technology, and innovation. As a main part of its activities, the member organizations of the Consortium have launched a joint call for applications for tenure-track researcher's positions from promising young researchers within and outside Japan in order to promote in these regions and encourage them to become distinguished researchers. For these purposes, the ideal candidate for the position will be required to conduct active independent research in the specified research fields as a tenure-track assistant professor at each university, collaborate with diverse actors, contribute to the Consortium, and develop the research career in an uncertain world.

For this job opening, Yamaguchi University invites applications for one full-time tenure-track associate professor or lecturer position in Chemical Engineering.

1. Number of Positions Available, Areas of Research and Institution

(1) Job classification: Associate Professor or Lecturer (Tenure-Track)

(2) Number of positions available: One

(3) Areas of Research:

Chemical Engineering

(Applicants are assumed to have expertise in Mechanical and Diffusion unit operations.)

(4) Affiliation (Appointment):

Graduate School of Science and Technology for Innovation, Yamaguchi University

2. Application Requirements

Applicants must satisfy all of the following requirements.

- ① Applicants should hold a PhD that was acquired after April 1, 2007, or have equivalent research experience, and should be under 40 years old (*1) as of April 1, 2017.
- ② Applicants should be able to communicate in English.
- ③ Applicants should be able to lecture and provide research supervision to undergraduate and graduate students in Japanese or English.
- ④ Applicants should be able to begin working immediately after October 1, 2018, and no later than the end of the Japanese fiscal year 2018.
- ⑤ Applicants should actively contribute to science, technology, and innovation.

*1: Applicants who participated in the mandatory clinical practice in Japan are eligible to apply unless they are 43 years old or older as of April 1, 2017. Since this project is supported by Funds for the Development of Human Resources in Science and Technology under MEXT, these age restrictions are subject to exceptional treatment by the Ordinance for Enforcement of the “Koyou taisaku” Act 1-3 (1-(3-2)).

3. Employment Conditions

(1) Term of Appointment

-The term of appointment is from October 1, 2018, to September 30, 2023.

-An associate professor or lecturer (tenure-track) of this job opening could possibly change his or her workplace within the consortium organizations through an agreement between the consortium and the associate professor or lecturer. In such a case, the term of appointment will remain the same, and the associate professor or lecturer will adhere to the standards of each organization.

-The associate professor or lecturer will receive midterm evaluations by September 2021 and final evaluations by March 2023. The associate professor or lecturer who passes his or her tenure reviews with Yamaguchi University will receive a tenured position, which is on a permanent basis with a mandatory retirement age.

-Depending on the final evaluation by the consortium, an associate professor or lecturer holding this position could be appointed by an organization that participates in the consortium through an agreement between the associate professor or lecturer and the

organization.

(2) Annual Salary

- ① Annual salary, including allowances, will be approximately 4,800,000-6,600,000 yen depending on the successful applicant's research experience (salaries will be calculated according to the annual salary rules of Yamaguchi University).
- ② Various types of insurance (The Ministry of Education, Culture, Sports, Science and Technology Mutual Aid Association, unemployment, and accident compensation) are available to an associate professor or lecturer of Yamaguchi University.

(3) Work Conditions

- ① The employment conditions and regulations of Yamaguchi University shall apply as deemed appropriate.
- ② The first place of employment will be located on the Tokiwa campus of Yamaguchi University.
- ③ A discretionary working-hour system is in place for professional work. This means associate professors or lecturers can manage their own working hours, although formal working hours are considered to be 7 hours and 45 minutes a day.
- ④ A maternity and childcare leave system will be applied.

4. Work Description

An associate professor or lecturer holding this position will be required carry out the associate professor or lecturer's work of each organization and contributions for the consortium as listed below.

- ① Conducting research activities inside and outside the consortium based on the research plan ("research effort" should be more than 60%)
- ② Actively working to obtain external research funds
- ③ Producing research outputs (e.g., publication in SCI journals and/or patents)
- ④ Disseminating research outputs to society, including presenting results at international conferences
- ⑤ Giving lectures and advising undergraduate and graduate students in their research
- ⑥ Participating in activities related to external research funds (even research activities related to external funds will be included as part of the research effort)
- ⑦ Being involved in other duties as considered necessary by each organization

- ⑧ Planning and operating international meetings, symposiums, and network activities organized or co-organized by the consortium
- ⑨ Attending training, lectures on faculty development, etc., conducted by organizations in the consortium
- ⑩ Being involved in other duties as considered necessary by the head of the executive committee of the consortium

5. Special Notices Related to the Consortium

(1) Role of the consortium in this job opening, processes for employment and career development in the consortium

- Application materials should be submitted to the secretariat of the HIRAKU consortium. The council of the consortium will determine the successful candidate after consulting with the organization that will accept the candidate. The successful candidate will then be hired by the organization as a faculty member (hereinafter referred to as a Consortium Assistant Professor).
- The term of the Consortium Assistant Professor will be same as 3(1).
- For the betterment of his or her development as a researcher, the Consortium Assistant Professor might be able to conduct his or her research at other organizations inside or outside of the consortium. Such arrangements should be made through an agreement between the consortium and the Consortium Assistant Professor.
- Consortium Assistant Professors are expected not only to conduct excellent research but also to be involved in consortium-related teaching, networking, and training activities to further their career development as researchers.
- Consortium Assistant Professors are expected to provide experiences and information for the consortium through the activities described above, via evaluation and training processes with their mentors in order to assist us in improving this system.
- Thus, applicants will be evaluated based on not only their research results and potential but also their ability to collaborate with diverse actors and develop their research careers by utilizing the research and training opportunities described above.

(2) Research Funds

During the first fiscal year, about 5,000,000 yen (*2) will be provided to each Consortium Assistant Professor as a start-up fund. In addition, during the term of appointment, about 500,000 yen per year (*2) will be provided for the consortium activities such as for training and registration costs for domestic or international conferences. These funds must be used in accordance with the regulations of the

workplace, the funding agencies, and the Japanese government.

*2: The amount could change depending on the grant-in-aid situation.

(3) Personnel Support

- ① Research and teaching education will be supported by mentors who are senior researchers in the consortium.
- ② Other research and teaching activities will be supported by university research administrators (URAs).

(4) Additional Remarks

Personal research spaces (offices and laboratories) will be preferentially allocated for Consortium Assistant Professors.

6. Application Materials

(1) Application Documents

- ① Curriculum vitae (including expected research field and workplace as bellow, using application form 7)
 - Graduate School of Science and Technology for Innovation, Yamaguchi University
 - Chemical Engineering
- ② List of research activities (e.g., books, reviews, original papers, conference proceedings); attach copies of no more than five major papers
- ③ Summary of past research activities (up to four pages on A4 paper including figures)
- ④ Research plan at the consortium (up to four pages on A4 paper including figures, a future research plan for five years to come)
- ⑤ Aspirations for contributions to science, technology, and innovation (one page on A4 paper)
- ⑥ List of references

*All of the above documents must be written in English or Japanese and be filled in the application form. The application form can be downloaded from the following URL: http://home.hiroshima-u.ac.jp/hiraku/younger_tenuretrack/

(2) Inquiries about Applications

Please contact us with any questions by e-mail at:

General information and procedure of this job opening:

consortium-koubo@office.hiroshima-u.ac.jp

(Secretariat of the HIRAKU consortium)

Specific information for the research environment of this job opening:

imai@yamaguchi-u.ac.jp

(Tsuyoshi Imai, Head of Department, Department of Sustainable Engineering, Yamaguchi University)

(3) Protection of Private Information

Private information related to the application is protected by the Personal Information Protection Law and the consortium's regulations (for the moment, we will invoke the regulations of Hiroshima University). Personal information related to submitted documents may be provided to other organizations in the consortium, through the council and/or executive committee of the consortium, with strict measures to avoid information leakage.

7. Deadline for Submission and the Selection Process

(1) Deadline for Submission

The deadline for submitting the application is 10 a.m. on April 2, 2018 (Japan Standard Time).

(2) Submission

All documents should be submitted in PDF format with the file name Consortium(9)_(last name of applicant_first initial) (e.g., Consortium(9)_(Einstein_A)) to the following e-mail address:

consortium-koubo@office.hiroshima-u.ac.jp

(Secretariat of the HIRAKU consortium)

The total file size must not exceed 10 MB. Larger documents may be submitted in separate files numbered as follows: 1/2, 2/2, etc. File compression must not be used. The secretariat will send a confirmation of receipt to each applicant. It is strongly advisable to make sure this confirmation message arrives after submitting the application.

(3) Selection Schedule

① The first screening (by the specific research area)

- The results of the first screening will be announced by e-mail to applicants around late May 2018.
- Successful candidates from the first screening will be given information about the second screening.
- There is a possibility that an interview will also be conducted during the first screening. In this case, the transportation cost for the interview will not be reimbursed.

② The second screening (by interview) will be conducted around June or July

2018.

- The results of the second screening will be announced to the applicants by the end of July 2018.
- The transportation cost for the second screening will be reimbursed by the consortium.

(4) Selection Standards

The first and second screening will evaluate the candidates in terms of research activities, originality and realization of research plans, and potential research impact (e.g., contribution to science, technology, and innovation).

8. Additional Remarks

(1) We strongly welcome applications from female and international researchers.

(2) Yamaguchi University enforces support for female researchers.

① Each female Consortium Assistant Professor will receive guidance related to job environment preparation and maintenance via the Yamaguchi University Diversity Support Office in collaborations with each Department.

② Women will be preferred among candidates with equal qualifications for the gender equality promotion.
